

24 Ceran Touch Control Cooktop 4 heating zones Professional Series

\$ 1,099

PE244CER

Bertazzoni 4-zone electric cooktops put Italian design and precision at the heart of your kitchen. Integrated front-mounted touch controls allow them to fit seamlessly into your kitchen and make them easy to use.

The smart design of the double zone elements maximizes heat delivery to each pot, saving energy without compromising performance. Extremely versatile with flexible heating areas of up to 1800W, they can bring water to a rapid boil or delicately melt chocolate on the lowest setting. The boil-over sensor helps avoid major spills and the smooth glass surface is easily cleaned when you've finished cooking.

Residual heat indicators give you peace of mind that your family and home are protected from accidents.

Bertazzoni ceran cooktops are ADA compliant. Designed with pride in Italy, they are covered by an industry-leading 2-year parts and labor warranty.
