

30 Convection Speed Oven Professional Series

\$ 2,599

PROF30SOEX

Bertazzoni speed ovens put Italian design and precision at the heart of your kitchen. As beautiful as they are practical, they can be installed flush or proud in any style of kitchen cabinet.

This oven is incredibly flexible, offering a choice of three technologies in one: baking, broiling and microwaving – all in one unit. You can use each cooking mode on its own or combine them to give you exceptional results. The convection microwave mode lets you cook tasty meals in up to the half the normal time with no compromise in aroma or flavor.

Manage cooking modes, temperature and time with the highly intuitive touch-through-glass user interface. When you've finished cooking, the no-fingerprint stainless steel is easy to clean.

Bertazzoni built-in ovens are designed with pride in Italy and covered by an industry-leading 2-year parts and labor warranty.
