

36 inch built-in French Door Refrigerator with ice maker and internal water dispenser

Professional Series

\$ 7,299

REF36FDBZPNV/24

This Bertazzoni 36" built-in French door refrigerator & freezer is engineered and manufactured to meet the highest grade of quality and performance.

This entire unit has ample storage capacity, with 14 cubic feet of refrigerator volume and 5.6 cubic feet of freezer space. The refrigerator compartment has 3 shelves of which 2 are height-adjustable and 2 full extension crispers. Additionally, it features 1 Fresco drawer with separate digital controls. This zone precisely keeps the temperature just above 32 F, preserving fresh food nutrients, flavors, and visual appearance substantially longer. The Dual Cooling Shield System provides an automatic defrosting function for both evaporators to ensure optimized food storage conditions. The freezer compartment has 2 metal drawers and an automatic ice maker.

The electronic touch-control LED interface simplifies setting and monitoring of all vital functions. LED lights on the top and sidewall provide clear illumination of the interior space. The internal water dispenser is equipped with an inline filter for hygienically clean drinking water and ice. Replacement water filters are available for purchase [here](#).

The EnergyStar qualification of this model ensures a highly reduced energy consumption, while providing optimal performance ratings.

Using one of the 3 available handle kits in Professional, Master and Heritage Series style, this refrigerator integrates seamlessly with all other Bertazzoni appliances into style-harmonized suites for a true, high-performing kitchen.

Handle kits and/or stainless steel panels are sold separately.

All Bertazzoni appliances are covered by a 2-year warranty.

See predecessor model [here](#).
